

**HIMACHAL PRADESH
PUBLIC SERVICE COMMISSION**

No. 4-5/2019- PSC-Part-II

Dated: 24-02-2026

“PRESS NOTE”

The Himachal Pradesh Public Service Commission today launched the **“HPPSC APPLICANT”** and **“HPPSC ATTENDANCE”** apps. The **“HPPSC APPLICANT”** app can be downloaded from **Google Play Store**. The **“HPPSC APPLICANT” app** enables the candidates to submit their application forms through mobile from anywhere and anytime, without the need to visit cyber cafés, common service centres. This initiative is particularly beneficial for candidates residing in remote and rural areas, who often face challenges in accessing online facilities. The mobile-based system ensures that applicants can conveniently complete the application process using their smart phones and also save their time and money.

Further the **“HPPSC Attendance” app** for Face Authentication based on **Artificial Intelligence** has been introduced as an additional security measure in the examination process. Face Authentication enables real-time verification of candidates at the time of examination through a secure mobile-based system. The facial image of the candidate captured during the application process is matched with the live photograph captured at the time of Entry in Examination Centre. This process will help to prevent impersonation and strengthen the transparency and integrity of the examination process

The Commission is also in the process to introduce **Aadhaar based Authentication** in OTR (One Time Registration System). For this purpose, Himachal Pradesh Public Service Commission has been notified by the Government of Himachal Pradesh to perform authentication and use of Aadhaar for establishing identity of candidates at various stages of recruitment. This will further mark a significant step towards strengthening examination integrity, transparency and ensuring fair and smooth conduct of examination.
