P.T.O.

3. Write short notes on : $6 \times 5 = 30$

- (a) Cardiac cycle
- (b) Circadian rhythm
- (c) Liver function tests
- (d) Precocious puberty
- (e) Bell's palsy
- (f) Broca's area.

4. Write short notes on : $6 \times 5 = 30$

- (a) Neuromuscular junction
- (b) Functions of cerebellum
- (c) Respiratory alkalosis
- (d) P⁵³ gene
- (e) Hyperurecemia
- (f) Thiamine.

5. Write short notes on : $6 \times 5 = 30$

- (a) Methicillin resistant *Staphylococcus aureus*.
- (b) Bacteriophage
- (c) Cholera
- (d) Pseudomembranous enterocolitis
- (e) Polio vaccines
- (f) Human papilloma virus.

6. Discuss in brief : $6 \times 5 = 30$

- (a) Kwashiorkor
- (b) Methotrexate : Uses
- (c) Glomerular filtration rate
- (d) Undescended testis
- (e) Horse shoe kidney
- (f) Peak Expiratory Flow Rate (PEFR).

7. Discuss in brief : $3 \times 10 = 30$

- (a) Opiate overdosage : Clinical features, diagnosis and management
- (b) Mechanism of action, uses and side effects of frusemide.
- (c) Partial Hanging.

8. Discuss in brief : $3 \times 10 = 30$

- (a) Post-Streptococcal Glomerulonephritis
- (b) *H. Pylori*
- (c) HMG Co-A reductase inhibitors.
