	All questions carry equal marks.
	INSTRUCTIONS
1.	Immediately after the commencement of the examination, you should check that test booklet does not have any unprinted or torn or missing pages or items, etc. If so, get it replaced by a complete test booklet.
2	Write your Roll Number only in the box provided alongside.
2.	Do not write anything else on the Test Booklet.
×3.	This Test Booklet contains 100 items (questions). Each item comprises four responses
	(answers). Choose only one response for each item which you consider the best.
24.	After the candidate has read each item in the Test Booklet and decided which of the given
	responses is correct or the best, he has to mark the circle containing the letter of the
5	selected response by blackening it completely with Black or Blue ball pen. In the following
	example, response "C" is so marked :
	(A) (B) (D)
5.	Do the encoding carefully as given in the illustrations. While encoding your particulars or marking the answers on answer sheet, you should blacken the circle corresponding to the choice in full and no part of the circle should be left unfilled. After the response has been marked in the ANSWER SHEET, no erasing/fluid is allowed.
6.	You have to mark all your responses ONLY on the ANSWER SHEET separately given

 All items carry equal marks. Attempt all items. Your total marks will depend only on the number of correct responses marked by you in the Answer Sheet. There will be no negative marking.

according to 'INSTRUCTIONS FOR CANDIDATES' already supplied to you. Responses marked on the Test Booklet or in any paper other than the answer sheet shall not be

- Before you proceed to mark responses in the Answer Sheet fill in the particulars in the front portion of the Answer Sheet as per the instructions sent to you.
- If a candidate gives more than one answer, it will be treated as a wrong answer even if one of the given answers happens to be correct.
